 Armenia

SUMMARY

Software Engineer with 6+ years of experience building full-stack web applications with Java, React, and TypeScript. Experienced in microservice architectures, message brokers, and modern frontend frameworks, with hands-on LLM integration, RAG pipelines, and semantic search.

WORK EXPERIENCE

- Senior Development Engineer, **SBERBANK**,
Built the web platform for **Unallocated Metal Accounts** - a product that **attracted 450K+ new accounts** and **RUB 46 bn in investments** in 2025 alone.

Apr 2024 – Present
- Responsible for the entire customer-facing web frontend: 5 micro-frontend projects, fully rewritten for the new design system
 - Developed backend for cash ordering, valuables management, and branch operations tracking
 - Integrated an AI coding agent using MCP
 - Published and maintained a shared UI library in the internal package registry
 - Configured OpenShift deployments and local stub environments for frontend-backend development
 - Set up Allure TestOps for automated test reporting
 - Led acceptance testing and release management
 - Conducted code reviews across Java and React codebases
 - Performed refactoring across Java, Spring, React, and TypeScript
 - Investigated production bugs through log analysis and customer reports
- Java · Spring Boot · Spring Microservices · React · TypeScript · Kafka · OpenShift · Docker · Kubernetes · Nginx · Allure TestOps · JUnit
- Full-Stack Developer, **SHARK IT COMPANY**,
Full-cycle application development from greenfield projects to maintaining existing solutions. Primary stack: Spring Boot and React/Next.js.

Mar 2019 – Apr 2024
- System architecture design and end-to-end technical implementation for a news publishing platform serving multiple media outlets
 - Full-stack development of user and admin panels with interactive media features: widgets, short-form video, content sliders
 - Real-time messaging and reader-to-publisher communication module
 - Led a team of developers across multiple projects
 - Payment processing integration (YooKassa) and ModulKassa (fiscal hardware compliance)
 - Cloud deployment and infrastructure on Yandex Cloud
 - Custom handwritten text recognition pipeline using PostgreSQL and AWS S3
 - Push notification system for content updates
 - Legacy code maintenance and incremental modernization
- Java · Spring Boot · React · Next.js · AWS · Nuxt · TypeScript · Vite · TailwindCSS · Kafka · RabbitMQ · Redis · MongoDB · Docker

SKILLS

Backend	Java, Spring Boot, Spring Microservices, Kafka, RabbitMQ, Redis, MongoDB, SQL, REST, Web-Socket, JWT
Frontend	React, Nuxt, Next.js, TypeScript, Vite, TailwindCSS, SCSS, Bootstrap
AI Engineering	LLM APIs, RAG, Embeddings, Vector Search, Semantic Search, Prompt Engineering, Privacy-preserving AI
DevOps	Docker, Docker Compose, Kubernetes, OpenShift, AWS, Nginx, Unix, Git, Maven
Testing	TDD, JUnit, Allure TestOps
Languages	Russian (Native), English (Fluent)

PERSONAL PROJECTS

NIRQ - AI-POWERED NEWS AGGREGATOR,

2025 – PRESENT

Telegram bot and web platform for personalized AI-driven news digests. Automatically aggregates RSS feeds from Telegram channels, generates semantic summaries, and delivers personalized digests.

- › Spring Boot backend with PostgreSQL, Redis, and Docker Compose
- › RAG pipeline: embeddings (pgvector, HNSW), semantic search, AI-powered digest generation
- › Multi-provider LLM routing with automatic fallback (OpenAI, GLM, Ollama)
- › Privacy-first architecture: anonymous usage, no user profiling, encrypted AI inference
- › Payment integration via YooKassa and Telegram Stars

[Java](#) · [Spring Boot](#) · [PostgreSQL](#) · [pgvector](#) · [Redis](#) · [Docker](#) · [Telegram Bot API](#) · [LLM APIs](#) · [Python](#)

EDUCATION

2018 – 2022 Bachelor's Degree, System and Applied Software Engineering @ **ITMO University**, St. Petersburg, Russia

TEACHING

Java Lecturer, ITMO UNIVERSITY,

2019 – 2020

Delivered lectures on Java programming, covering core concepts, OOP, and practical software development practices for undergraduate students.

[Java](#) · [OOP](#) · [Software Development](#)

Java Lecturer, NORTH-EASTERN FEDERAL UNIVERSITY,

2019 – 2020

Taught Java programming courses, prepared and delivered lectures for university students.
